

REMARKS

The amendments above are being submitted under CFR 37 § 1.116(b)(2) to place the claims in better form for consideration on appeal.

While preparing an Appeal Brief, Applicant's representative noticed that the term "outgoing packet processor" in claims 15, 16 and 45-47 of the patent application as filed lacked antecedent basis and should have been "outgoing packet generator". This inadvertent typographical error, that also was introduced to independent claims 1 and 31 in the amendment filed May 3, 2007, now has been corrected.

Respectfully submitted,

Mark M. Friedman
